Coming Alive

Greek Fire

Imagine everything,
Do anything you please,
At least that's what they tell us.

Make everything I see,
Control catastrophe
In finding self reliance

Rome is reality,
Digital flashing green,
This day is almost over.

Journals and novelties,
Skeptic analogies,
There's not a better moment.

I've never dreamed in code
I've never dreamed in color,
Defying gravity floating about the covers.

Shadows are on the wall
And I can move it all,
I haven't had this feeling.
What if I can't break free?
Dreaming has taken me
To face my inner demons.

I've never dreamed in code,
I've never dreamed in color.
Defying gravity floating about the covers.
I'm here to test myself and any other cheeses.
I'm losing all control, I'm paralyzed and all my dreams are

Coming alive,
Coming alive,

I'm paralyzed.
Follow me into an open ocean,
Where the land won't go,
Where the land makes no sense.
Follow me into imagination,
Where the man of faith
Meets the man of science

Coming alive
(It's coming alive)
Coming alive
(They're coming alive)

I've never dreamed in code
I've never dreamed in color
Defying gravity floating about the covers
I'm here to test myself and any other cheeses
I'm losing all control
I'm paralyzed and all my dreams are

Coming alive

```
(All my dreams are)
Coming alive
(All my dreams are)
```

```
(All my dreams are)
Coming alive
(All my dreams are)
```
