Greeley Estates

It's all relative  
The way we see each other  
Picture it now  
You and I  
Fighting 'til the end

I'll be your way home  
I'll be your lantern  
The storm is coming  
I'll be your way out  
I'll be your lantern once again

I'll be your answer  
I'll be your answer

What have you done?  
Threw this all away  
It was all for nothing  
What if I died tonight?  
Would you replay this scene over and over again?

Disarm me with those eyes  
You always kill me that way  
You'll be my poison  
I'll be your murder once again

You'll be my poison  
I'll be your murder

What have you done?  
Threw this all away  
It was all for nothing  
What if I died tonight?  
Would you replay this scene over and over  
And I'll be your statue that's made out of porcelain  
You make me break  
I'll be your window that's shattered to pieces  
You make me break over and over again

What have you done?  
Threw this all away  
It was all for nothing

Look at me now  
I'm in pieces  
You've got nothing on me  
Look at me now  
I'm in pieces  
You've got nothing on me

Now I'm in pieces  
Now I'm in pieces

Look at me now  
I'm in pieces  
You've got nothing  
Now there's nothing

What have you done?  
Threw this all away  
It was all for nothing  
What if I died tonight?  
Would you replay this scene over and over  
And I'll be your statue that's made out of porcelain  
You make me break  
I'll be your window that's shattered to pieces  
You make me break over and over again

What have you done?  
Threw this all away  
It was all for nothing  
Make me break  
You make me break like I'm made out of porcelain
