

Time Ain't Nothing

Greeley Estates

Walking down dusty roads
Looking for horny toads
With the sun on my face
Thinking about people past
Memories that never last
When you're young and naive

Chorus

Time ain't nothing
When you're young at heart
And your soul still burns
I've seen rainy days
Sunshine that never fades
All through the night

Had a motorcycle at 10
Never got into heroin
I guess I want to live
Gonna get a house one day
Find a wife raise a family
That don't mean you have to die

Chorus
