

# Burnout

Green Day

**F#**                      **B**                      **F#**  
1. I declare I don't care no more  
   **B**                      **E**                      **F#**  
I'm burning up and out and growing bored  
   **B**                      **E**                      **C#**  
In my smoked out boring room  
   **F#**                      **B**                      **F#**  
My hair is shagging in my eyes  
   **B**                      **E**                      **F#**  
Dragging my feet to hit the street tonight  
   **B**                      **E**                      **C#**  
To drive along these shit town lights

**B**                                      **F#**  
R: I'm not growing up  
   **E**                      **F#**  
I'm just burning out  
   **B**  
And I stepped in line  
   **E**                                      **C#**  
to walk amongst the dead

2. Apathy has rained on me  
Now I'm feeling like a soggy dream  
So close to drowning but I don't mind  
I've lived inside this mental cave  
Throw my emotions in the grave  
Hell, who needs them anyway

R: I'm not growing up... (3x)
