## Do Da Da

Every time I'm fallinD down You take the reprecussions Headaches and anxieties Advancing my frustrations

Rushings of my depression Sacrifice everything Waste with me into nothing Well, now you're stuck with me Stuck with me Stuck with me

Hand up your soul to my wrist And I'll vow my trust to you Moving here I always thought I realized you've imagined

Rushings of my depression Sacrifice everything Waste with me into nothing Well, now you're stuck with me Stuck with me Stuck with me

Rushings of my depression Sacrifice everything Waste with me into nothing Well, now you're stuck with me Stuck with me Stuck with me **Green Day**
