

Fever

Green Day

It's never easy
When you're young
But you got your friends and the weekends
On a summer night

You're just a baby
Looking for some fun
On a lazy day and you're getting blazed
On a summer night

I've got a fever tonight
Fever tonight (Fever tonight)
Runaway from home with no place to go
Got a fever tonight

Here comes trouble
And it's going down
Singing life's a gas when you're going fast
Looking for a fight

I've got a fever tonight
Fever tonight (Fever tonight)
Runaway from home with no place to go
Got a fever tonight

Fever tonight
Fever tonight (Fever tonight)
Runaway from home with no place to go
Got a fever tonight

Fever tonight
Fever tonight (Fever tonight)
Runaway from home with no place to go
Got a fever tonight
