

Hearts Collide

Green Day

Love conquers every time
When two hearts come to collide
You're the card in my valentine
And the candy hearts in my mind

And true love is the rule
And you're nobody's fool

The ship's coming to the light
And it was love at first sight
Baby, babe, you're the light
And the flame burns in my mind's eye

When triumph bleeds into bliss
And I knew it from the first kiss

Tonight, hearts collide
Hearts collide
Hearts collide

When triumph bleeds into bliss
And I knew it from the first kiss

Tonight, hearts collide
Hearts collide
Hearts collide
Tonight, hearts collide
Hearts collide
Hearts collide.
Tonight, hearts collide
Hearts collide
Hearts collide.
Tonight, hearts collide
Hearts collide
Hearts collide.
