

Missing You

Green Day

Waking up feeling naked
In my clothes, inside a room that's vacant
Lost my nerve, it's unnerving
I know there is something I'm forgetting

I searched the moon, I lost my head,
I even looked under the bed
I punched the walls, I hit the streets
I'm pounding the pavement looking

I'm missing you
I'm missing you
You're not around and I'm a complete disaster
I'm missing you

Remember, was our first time
I told you I loved you at the bus station
Don't forget, cause it's not over
I'm not lost cuz I'm just missing you

I searched the moon, I lost my head,
I even looked under the bed
I punched the walls, I hit the streets
I'm pounding the pavement looking

I'm missing you
I'm missing you
You're not around and I'm a complete disaster
I'm missing you

Say hey!

Well she's my bud
And she's my soul
I get so lost
Out in the cold

Feels so far
Like this lone star
It gets so hard
When I'm missing you

I'm missing you
I'm missing you
You're not around and I'm a fuckin disaster
I'm missing you
