

## Olivia

Green Day

Olivia, Olivia it's raining outside  
the city is drenched there's a moon out tonight  
there's a break in the clouds just under the stars  
we wanna go on and watch from afar

We couldn't care when and stepped in the mud  
It makes no sense but you misunderstood  
The city is in ruins, but there's a flower in the crack of the  
streets

Olivia, Olivia, I'll give you my best  
safe in my arms, I'll lay you to rest  
you can borrow my coat, you wear the dress  
Olivia, Olivia, come follow me home
