

# Let The Devil In

Green Lung

You've spent your whole life in the service of God  
Down on your two knees to save your soul  
We've been watching, everything you do  
Our Lord and Master has great plans for you

Sister, you've been told  
That making love's a sin  
Open your heart  
And let the devil in

Sister, can't you see  
His mark upon your skin  
Open your heart  
And let the devil in

Come to the last house on the left of the street  
In the red room our circle will meet  
Wear nothing more than a long black hood  
And a pendant of tannis root

Sister, you've been told  
That making love's a sin  
Open your heart  
And let the devil in

Sister, you can try to fight  
You know you'll never win  
Open your heart  
And let the devil in

Let him in  
Let the devil in

Sister, you've been told  
That making love's a sin  
Open your heart  
And let the devil in

Sister, let it go!  
Give yourself to him  
Open your heart  
And let the devil in

Let him in  
Let the devil in
