

Maxine (Witch Queen)

Green Lung

Do you remember those midsummer nights at Alderley Edge?
Initiated to the craft
Skyclad and sword in hand you stood beneath a sea of stars
Forever my High Priestess

Maxine, nocturnally, I still see you in my dreams
Maxine, infernally, you have cast your curse on me

Do you remember those four golden years in Notting Hill Gate
The Book of Shadows open wide
You wore the moon crown upon the Grand Sabbat of Beltane
The chalice to my athame

Maxine, witch queen, priestess of the third degree
Maxine, witch queen, hierophant of Hecate
Maxine

I still remember you
You were drawing down the moon

Maxine, nocturnally, I still see you in my dreams
Maxine, eternally, will you ever set me free?
Maxine, witch queen, priestess of the third degree
Maxine, witch queen, hierophant of Hecate
