

## All Four

Greensky Bluegrass

Everything here is not so uptight, I  
Have good reason for concern  
All my options are coming?  
Runnin' away till the? begin  
What if I need to escape  
But I'm still waitin' on for  
I gotta keep sense of the end  
I might work here till I'm?  
Go straight turn round  
All my four wheels in the air

I was tryna keep my head above the ground  
And make a simple good living somehow  
All four wheels on the road

All the local roads are freezing?  
I'm sure it's hard to say you're proud  
I been weering at the wheels so long  
Think of all the God pastors  
Wonder how I've come this far

I was tryna keep my head above the ground  
And make a simple good living somehow  
All four wheels on the road

I've traded 7 years for this  
And I'm buried in repair  
The burned out head-light, these four brakes  
And I have no idea what is next  
Now I'm pushing home

I was tryna keep my head above the ground  
And make a simple good living somehow  
All four wheels on the road

This is not in favor of the odds  
My discretions out of practice  
I may wake up broken down  
Way out this whirlwind ground
