

Before Bring Out Your Dead

Greensky Bluegrass

Bring out your dead, the law is coming and there's nowhere left
to hide

Big black suit's coming down, gonna clean out from the inside

People being killed for what they made

Picking on more than they can carry away

Bring out your dead, the law is coming and there ain't no way t
o hide

Big black suit's coming down, gonna clean out from the inside

People being killed for what they made

Taking on more than they can carry away
