

Do Harm

Greensky Bluegrass

There is liquor in the water and lies behind my eyes
Because what I told you last night I couldn't mean it all the time

Do you think that you could love me if my love comes and goes
The only thing about me that you should ever need to know
Is that it's real when you're in my arms
And when I leave, all I do is harm

I'm gonna need you baby when I'm coming home alone
But it's gonna make me lonely when leaving you is wrong
I could try to stay but honey it's too soon
I've got a wild feeling for running and miles left to do
But it's real when you're in my arms
And when I leave, all I do is harm

So put me in my place, if you need to get away, all you gotta do is say
So it makes me want you, if you want to keep me girl all you gotta do is leave me

Because it's real when I'm in your arms
When I leave all I do is harm
Yeah it's real when I'm in your arms
When I leave, all I do is harm
