

Jaywalking

Greensky Bluegrass

It's not like we were jaywalking
Now we've got Reno on our trail
We've been through this before
But it still doesn't make any sense

Don't act like you weren't there when we all agreed
Didn't see your arm twisted
Your name is all over this
Stick around pick up your mess
You're gonna bring down the heat
You're gonna get us busted

I've got a large amount of concern
For the way you deal in disrespect
You've got a mouth like Niagara
And that little bit of extra weight
The man can see those previous cases
You've got your hands real bloody
Gonna get us busted

It's not like we were jaywalking
Now we've got Reno on our trail
We've been through this before
But it still doesn't make any sense

Slow down and move
At a little less harmful speed
You're missing all of the signs
You want to move, you want to lose
You want to leave everything
Then open up your eyes
Gonna get us busted

It's not like we were jaywalking
Now we've got Reno on our trail
We've been through this before
But it still doesn't make any sense

Don't act like you weren't there when we all agreed
Didn't see your arm twisted
Your name is all over this
Stick around pick up your mess
You're gonna bring down the heat
Gonna get us busted
Busted
Gonna get us busted

It's not like we were jaywalking
Now we've got Reno on our trail
We've been through this before
But it still doesn't make any sense
