

## No Idea

Greensky Bluegrass

We've been skippin' around blind  
Somebody's probably gonna lose an eye  
Pokin' around in the dark  
Somebody always gets fucked

We're all drivin' cars drunk  
One of us is gonna end up locked up  
Tossin' around all the blame  
We're all going down on someone else's dime

We have no idea  
We have lots of ideas  
We buried away our fear with ambition  
We discovered what we fear with ambition

We're carving a name  
Somebody's gonna look back at where we've been  
But we're walking so light  
Nobody's gonna know where we were today

We have no idea  
We have lots of ideas  
We buried away our fear with ambition  
We discovered what we fear with ambition

We've been gettin' stoned all day  
Somebody needs to write this down  
And I've been singin' my whole life  
Nobody's sayin' which part I can't get right

We have no idea  
We have lots of ideas  
We buried away our fear with ambition  
We discovered what we fear with ambition

Raisin' our debts to fill the space  
Somebody's gonna come take this away  
And we're losing our stuff  
Who's gonna be left to sort shit out

We have no idea  
We have lots of ideas  
We buried away our fear with ambition  
We discovered what we fear with ambition

We buried away our fear with ambition  
We discovered what we fear with ambition
