

The Four

Greensky Bluegrass

I keep digging holes in someone else's ditch
I'm looking for apples but they're all in the trees

Somebody help me cause I can't be saved
(Somebody help me be safe)
But I haven't done anything I can't name
(I've done nothing I can't name)

I fell in love with the four chord, I didn't need anymore
I forgot about the five of us, and what we came here for

Somebody help me cause I can't be saved
(Somebody help me be safe)
But I haven't done anything I can't name
(I've done nothing I can't name)

I think I'll have another cocktail, I couldn't get enough
I wouldn't let our worries get the best of us

Somebody help me cause I can't be saved
(Somebody help me be safe)
But I haven't done anything I can't name
(I've done nothing I can't name)

Somebody help me cause I can't be saved
(Somebody help me be safe)
But I haven't done anything I can't name
(I've done nothing I can't name)

I fell in love with the four chord, I didn't need anymore
I forgot about the five of us and what we came here for

Somebody help me be safe
I've done nothing I can't name
Somebody help me be safe
(I'm a wreck, I'm wrecked, but I'm putting it on you)
I've done nothing I can't name
(Cause the truth isn't true)

Somebody help me cause I can't be saved
(Somebody help me be safe)
But I haven't done anything I can't name
(I've done nothing I can't name)

Somebody help me cause I can't be saved
(Somebody help me be safe)
But I haven't done anything I can't name
(I've done nothing I can't name)
