

The Radio Blues

Greensky Bluegrass

Everywhere I go my friends are on the radio
Them DJs ain't got time for my sad songs
So everywhere I go I listen to the radio
And hope that someday they'll play mine

Driving late one night in my car
I heard that song that makes me want to die
I just kept moving on to Rockford
Just maybe that DJ will play my song

Everywhere I go my friends are on the radio
Them DJs ain't got time for my sad songs
So everywhere I go I listen to the radio
And hope that someday they'll play mine

Playing night after night in smoky old bar rooms
It's keeping me awake all night long
And the women who seem to want me they all lie
And they always end up to be another man's wife

Everywhere I go my friends are on the radio
Them DJs ain't got time for my sad songs
So everywhere I go I listen to the radio
And hope that someday they'll play mine

Everywhere I go my friends are on the radio
Them DJs ain't got time for my sad songs
So everywhere I go I listen to the radio
And hope that someday they'll play mine
And hope that someday they'll play mine
