What's Left Of The Night

Greensky Bluegrass

What's left of the night's just arrived
Tonight is given to you and me
What's left of the night's better side
The wind is sending you with us

Tonight is sending you and me
Down a road the blind can see
Same old crazy conversation
It should come as no surprise
I'd bet the western skies
We're in a sticky situation

I'd bet on what's left of the night
But I wouldn't say goodbye

What's left of the night's at our feet
Put one foot in front of the other
What's left of the night's bittersweet
Better chance to lose your cover

Tonight is sending you and me
Down a road the blind can see
Same old crazy conversation
It should come as no surprise
I'd bet the western skies
We're in a sticky situation

I'd bet on what's left of the night
But I wouldn't say goodbye

What's left of the night's in the air
He don't dare to make suggestions
What's left of the night he don't care
He's just there for misdirection

Tonight is sending you and me
Down a road the blind can see
Same old crazy conversation
It should come as no surprise
I'd bet the western skies
We're in a sticky situation

I'd bet on what's left of the night
But I wouldn't say goodbye

What's left of the night's like a ghost
In the darkness there she lingers
What's left of the night's very most
And she's slipping through our fingers

Tonight is sending you and me
Down a road the blind can see
Same old crazy conversation
It should come as no surprise
I'd bet the western skies
We're in a sticky situation

I'd bet on what's left of the night
But I wouldn't say goodbye
I'd bet on what's left of the night
But I wouldn't say goodbye

But I wouldn't say goodbye
I wouldn't say goodbye
But I wouldn't say goodbye
I wouldn't say goodbye
