All that Maya shit theory anyway  
I don't believe a word that you say  
Spreading lies, my dismay at your gain  
Dutty Babylon I won't play your games

Won't play your games  
Won't play your games  
Games

You man got us trapped in our egos  
Fear and imbalance is all we know  
From young training us out of our souls  
Further and further from source, yeah, we go

Away we go  
Away we go  
Away we go  
Away we go

What's it to be human? I don't know  
Without magic then what is this world?  
Got a mask, watch me put on a show  
Contributing, I'm sitting front row

Catch me front row  
Catch me front row  
Catch me front row  
Catch me front row

All that Maya shit theory anyway  
I don't believe a word that you say  
Spreading lies, my dismay at your gain  
Dutty Babylon I won't play your games

Won't play your games  
Won't play your games  
Won't play your games  
Won't play your games  
Your games  
Games
