

Smooth child
Looking for her groove child
Never in the mood child
Know you've been a wild child
Always been around child
Searching for that sound child

Me and my bredrins
We're busy manifesting
Too busy feeling blessed
Can you vibe with us?
You and your crew making money, making moves
But when all the money's through
You're still infected
It's not money on my mind
See, I'd rather spend my time
Getting high and staying aligned
It's all connected (It's all connected)
Yes, it's all connected (Yes, it's all connected)

Smooth child
Looking for her groove child
Never in the mood child
Know you've been a wild child
Always been around child (Always been around child)
Searching for that sound child

Me and my brothers
We're busy spreading love
Staying in touch with up above
Can you vibe with us
You and all your friends
Are obsessed with the pretend
But when all the money's spent
Yes, you can vibe with us
(Yes, you can vibe with us)
(You can vibs with us you know you can)

Smooth child
Looking for her groove child
Never in the mood child
Know you've been a wild child
Always been around child
Searching for that sound child

You can just chill
It's not all bout the money
Vibzin' is for free and gifts keep on coming
Said you can just chill it's not all about the money
Vibzin' is for free and gifts keep on coming
