Tap-tap go the souls in the city
Tap-tap go the souls in the city (Satta vibrations)
Tap-tap go the souls in the city
Tap-tap go the souls in the city (Satta vibrations)

Tap-tap go the souls in the city
Tap-tap go the souls in the city (Satta vibrations)
Tap-tap go the souls in the city
Tap-tap go the souls in the city

Things are getting buck wild
No signs of shit slowing down
Me and my peoples moving underground
Inna earth Lord's children
We keep it satta (Satta, we keep it satta)

Things are getting buck wild
No signs of shit slowing down
Me and my people moving underground
Inna earth Jah's children
We keep it satta

Tap-tap go the souls in the city
Head down, skipping cracks, I keep a posture with me
Big coat but we still come pretty
Mad-hatter flies high and the pigeons fly with me
No leaves on the trees but the grass be green
A passerby returns in dream state
As a woman cries, sirens arise
From tempered skies and I'm awake

Things are getting buck wild
No signs of shit slowing down me and my people moving underground
Me and my peoples moving underground
Inna earth Jah's children
We keep it satta (Satta, we keep it satta)
(Satta vibrations)
(Satta vibrations, yeah)
(Satta vibrations)

Zapp-zapp up ya brain in the city
Zapp-zapp up ya brain in the city
Zapp-zapp up ya brain in the city
Zapp-zapp up ya brain in the city

Zapp-zapped up ya brain in the city
Concentrated efforts
That's the real nitty-gritty
Wasteful, I try take my tea with me
On the go touch road always a big zoot, litty
Cutting down our trees for their 5G
But Inshallah, they won't succeed
At least the grass is green
A passerby return in dreams
But I'm awake

Things are getting buck wild

No signs of shit slowing down
Me and my peoples moving underground
Inna earth Jah's children
We keep it satta

Things are getting buck wild
No signs of shit slowing down
Me and my peoples moving underground
Inna Earth Jah's children
We keep it satta

(Satta vibrations)
(Satta, we keep it satta)
