

I don't beg, friend
I will not change nothing for them
See, they come and go like, man
I don't take part because I can
I'm not hatin'
No time for wotless conversatin'
Who you know and the parties you been
Baby, you win, go 'head and win
You try reject me
But none of your dead talk affects me
All these jealous words and hexing
Cannot test me, do not vex me

You and me
Puttin' spells on we
Words of negativity
Fuckin' our reality

Watch you smile in my face
Then chattin' shit as you walk away
And I'm calm like every day
Ain't got no time for the games you play
You feel some next way
And if you let them feelings there stay
Watch you manifest your days
Creatin' dread, you need to raise

You and me
Puttin' spells on we
Words of negativity
Fuckin' our reality
