

Three Eyes Open

Greentea Peng

Get it how you get it
Say what you gone say
Speak upon what you know
Upon that only
Walking with ya eyes closed
Gone catch up one day surely
Wandering but no lost and that's ok

Step it hot steppa
But tread lightly
Step it hot steppa
With no technique
Never say never no never say never no please
3 eyes open
Beware the fuckeries

There was rich young lady
Her colours were full
It was a big wide world
In her mind she was duelled
In between GOD and earth there was a mighty pull
Somewhere before sight she felt
That she knew it all
She felt that she knew it all

Step it hot steppa
But tread lightly
Step it hot steppa
With no technique
Never say never no never say never no please
3 eyes open
Beware the fuckeries

Talk it what ya repin
Yea talk it properly
Stand it what you stand for
All fall onto your knees
Come with your heart or don't come at all
Usher yourself through the open door you'll
Find you peace even if you have to
Calve it out Yourself

3 eyes open
Beware the fuckeries

3 eyes open
Beware the fuckeries

Step it hot steppa
But tread lightly
Step it hot steppa
With no technique
Never say never no never say never no please
3 eyes open
Beware the fuckeries
