

Whatcha Mean

Greentea Peng

What you mean? What you mean?
Say what you mean to me (Say what you mean to me)
What you mean? What you mean?
Say what you mean to me

Give it to me, you gotta let me know
What I am doing, where I am going wrong
Stop licking arse, tell me to my face
Here for it now, so show me what you made of
Show me what you made of
Show me what you made of
Show me what you made of

You think I care about your opinions?
I think they valid, but they can't do me harm
I'll take it on your criticisms, then dust 'em off
Yeah, once I feel I've grown
So show me what you made of (Made)

What you mean? What you mean?
Say what you mean to me
What you mean? What you mean?
Say what you mean to me (Say what you mean to me)

Good thoughts and it shows, bad habits, they grow
Jealousy no more, that monster been controlled
Green eyes and they bold, coming for all my gold
Grip, grip, it holds you, sit on chest, it grows
We drip-drip, yeah, we pouring, the master been ignoring
We sleeping, yeah, we snoring, it's knocking, it's important
Let the rhythm rid your dormancy, yeah, yeah
So show me what you made of
Show me what you made of
Show me what you made of
Show me what you made of

You think I care about your opinions?
I think they valid, but they can't do me harm
I'll take it on your criticisms, then dust 'em off
