

## My Vow

Greg Bates

It ain't destiny  
We won't make history  
I can't promise you the moon  
There will come a time  
That you will see that I  
Am just an ordinary fool  
I'm no knight in shinin armor  
I don't have riches to my name  
My heart is full of love so true  
And that's my vow to you  
Well I have spent my life  
Trying to live it right  
Between the heartache and the pain  
But you reached out to me  
And showed me love I'd never seen  
And made me all that I am  
If there's a wall that stands between us  
I will tear it to the ground  
And I will always be the one you hold on to  
Yeah that's my vow to you  
Yeah when the rains are falling  
And when you're lonesome and scared  
When I hear you calling  
I'll be there  
Yeah I'll be there  
So with this ring I wed  
And promise to protect  
The life and love I share with you  
My love will carry on  
Long after I do  
And that's my vow to you  
Yeah, that's my vow to you
