

Rain & Snow

Greg Brown

What you want
You can have
I got two
And you
Can have the bigger
I figure
Its only fair

If you want to
My sweet
Go ahead
Take and eat
And anyway
This rain will wash us
On from here
Theres a root
Sticking out
From the dirt
It won't hurt
To pull it clear
Right here
And make a fire

Make a shelter
Of sticks
Some thin
Some thick
High and low
Rain and snow
Like a choir

Fall on me

If you're falling
Fall on me

If you're falling
If you're falling
Fall on me

Things glow
In the snow
Let us follow
And swallow
Everything
Like a wing
In flight
When the coal
Gets old
I will feed you
Because I need you
To stay warm
I mean no harm
Tonight

Fall on me

If you're falling
Fall on me

If you're falling
If you're falling
Fall on me
