

## Worrisome Years

Greg Brown

And the worrisome years--over the hill  
I thought it's supposed to get easier to pay your bills  
I got nothing to show except a worrisome heart  
Can you please tell me--when does the good part start?

I done like they told me, I done like I should  
Ever since I started, I's trying to make good  
trying to make a good life for my family  
but I can't buy that stuff the kids want from TV

And the worrisome years--over the hill  
I thought it's supposed to get easier to pay your bills  
I got nothing to show except a worrisome heart  
Can you please tell me--when does the good part start?

I think about leaving--but where would I go?  
How would I get there? I don't know  
I took my stand here--I don't want to roam  
This old town ain't much but it's all I know of home

And the worrisome years--over the hill  
I thought it's supposed to get easier to pay your bills  
I got nothing to show except a worrisome heart  
Can you please tell me--when does the good part start?

~~~♪♪♪ ~~~

I look at Cheryl--she looks at me  
We don't talk no more about our dreams  
We don't have no fun the way we used to do  
Don't be disappointed in me baby  
I ain't disappointed in you

And the worrisome years--over the hill  
I thought it's supposed to get easier to pay your bills  
I got nothing to show except a worrisome heart  
Can you please tell me--when does the good part start?

When does the good part start?  
When does the good part start?  
When does the good part start?
