

Are We Wasted

Greg Holden

I've been leaning on words but using them sideways
Making excuses and I don't know why
Lately I know that I've not been trying
Burying things that took me years to find
What is wrong with me?
What is wrong with me?

So tell me are we wasted?
Tell me are we wasting all our time
I reckon we can make it
Making everything both yours and mine

'Cause we've come too far and we both know
That we've come too far to let it go

The truth comes out but he saw his shadow
So he did away and left us here to climb the hill and fight this battle
So hold on tight until the coast is clear
We are almost there
We are almost there

So tell me are we wasted?
Tell me are we wasting all our time
I reckon we can make it
Making everything both yours and mine

So tell me are we wasted?
Tell me are we wasting all our time
I reckon we can make it
Making everything both yours and mine

So tell me are we wasted?
Tell me are we wasting all our time
I reckon we can make it
Making everything both yours and mine

'Cause we've come too far and we both know
That we've come too far to let it go
So let it go
