

How Long

Greg Kihn Band

Get it out of your system
Put it out of your mind
A fool was I to keep you here
Oh no, I must have been blind

But ain't it funny, baby
Little miracles never cease
Let's keep 'em locked up in the room upstairs
And throw away the keys
How long this thing last
How long this thing last

So keep the fires burnin'
Keep the lovelight bright
It's unpredictable weather
Make it change you overnight

But ain't it funny, baby
Little miracles never cease
Let's keep 'em locked up in the room upstairs
And throw away the keys
How long this thing last
How long this thing last
How long
This thing last
This thing last

So get it out of your system
Put it out of your mind
A fool was I to keep you here
Oh yeah, I must have been blind

But ain't it funny, baby
Little miracles never cease
Let's keep 'em locked up in the room upstairs
And throw away the keys
How long this thing last
How long this thing last
How long
This thing last
This thing last
This thing last
