

I Fall to Pieces

Greg Kihn Band

I fall to pieces
Each time I see you again
I fall to pieces
How can I be just your friend?

You want me to act
Like we never kissed
You want me to forget
Pretend we never met
Well I try and I try
But I haven't yet
You walk by and I fall to pieces

I fall to pieces
Each time that someone speaks your name
I fall to pieces
Time only adds to the flame

You want me to find
Someone else to love
Someone who'll love me true
The way you used to do
But each time I go out
With someone new
You walk by and I fall to pieces

I fall to pieces
Each time I see you again
I fall to pieces
How can I be just your friend?
How can I be just your friend?
How can I be just your friend?
