

In The Naked Eye

Greg Kihn Band

I must be in the eye of the hurricane
I must be in cold right before the rain
I can't explain, I'm not the same
I keep on looking but, but I search in vain

Can't be seen by the naked eye
It comes and goes but I don't know why
I see love in the naked eye

I must be on the edge of the razorblade
In the situation that I have made
What can I do, it's up to you
'Cause everything I did, I did for you

It can't be seen by the naked eye
It comes and goes but I don't know why
I see love in the naked eye
In the naked eye

There is no warmth without your fire
There is no truth in your desire
Sometimes the smoke gets in my eyes
That's when I finally realize

It can't be seen by the naked eye
It comes and goes but I don't know why
I see love in the naked eye
In the naked eye
In the naked eye
In the naked eye
