Tear That City Down

Greg Kihn Band

Don't keep waitin' for that train thing
'Cause it don't ever run on time
You'll be standin' in that falling rain
I know you never will be mine

But it won't take too long
And it won't take too long
To tear that city down
Tear that city down, yeah, yeah

I've just been ridin' on that night train
I never came this way before
Now I doubt if it's the right train
To get me back to your front door

And it won't take too long
And it won't take too long
To tear that city down
Tear that city down
Tear it up!
Tear that city down, yeah, yeah

You stay up all night long, you wonder why
You keep on lookin' for a reason
But New York City, girl, can make you cry
And it's every change of season

Tear that city down
Tear that city down
Tear that city down
Tear that city down, yeah, yeah

Tear that city down
Tear that city down
Tear that city down
Tear that city down
Tear it up now!
