

Valerie

Greg Kihn Band

When I'm not with you, I jump in my car
And drive to the place that I think that you are
If you're not there, I might just park
And dream about your face in the dark

Oh Valerie
Can't you see
If I disappear, I wouldn't be missed
I don't think she knows that I even exist at all

Well, I went to a party where I knew she'd be
But I know there's no way she'd be leaving with me
Happened to see her with another guy
He was tall and handsome, I was jealous and shy

Oh Valerie
Can't you see
If I disappear, I wouldn't be missed
I don't think she knows that I even exist at all

She's the girl everybody is after
First you're with her, then you're past her
I shifted gears 'cause I thought I could catch her
I thought I was quick, but I guess she was faster

Oh Valerie
Can't you see
If I disappear, I wouldn't be missed
I don't think she knows that I even exists at all
