

## Choice in the Matter

Greg Laswell

Do that trick again for me  
The one where you got the best of me instantly  
Do that trick for me  
Once more around slow  
So I can see

And I swear I was doing fine that part of me had died  
And I swear to you I believed I was doing fine  
That part of me had died  
But it survived  
But it survived

Walk in a room for the first time for me  
Render me a fool effortlessly  
I like the way you move  
Hell, I like the way you breathe

And I swear I was doing fine that part of me had died  
And I swear to you I believed I was doing fine  
That part of me had died  
But it survived

As if I had a choice in the matter from here on out  
As if I had a choice in the matter from here on out  
As if I had a choice in the matter from here on out  
Well, I guess I don't really mind if I ever make it out

And I swear I was doing fine that part of me had died  
And I swear to you I believed I was doing fine  
That part of me had died  
But it survived

As if I had a choice in the matter from here on out  
As if I had a choice in the matter from here on out  
As if I had a choice in the matter from here on out  
Well, I guess I don't really mind if I ever make it out
