

## Do Better

Greg Laswell

One note  
We all give into  
One note based on what we've been through  
No dissonance cuts through  
Even though it makes me and you

Don't you believe we can do better?  
Don't you believe we can do better?

One note  
Maybe two  
As long as it comforts me and you  
And no dissonance cuts through  
Even though it makes you and no dissonance cuts through  
Funny how that's true

Don't you believe we can do better?  
Don't you believe we can do better?

Oh, don't you believe we can do better?  
Don't you believe we can do better?

This is where I shout  
That time is running out  
This is where I shout  
That time is running out  
This is where I shout  
That time is running out  
This is where I shout  
That time is running out

Don't you believe we can do better?  
Don't you believe we can do better?

Don't you believe we can do better?  
Don't you believe we can do better?

Oh, don't you believe we can do better?  
Don't you believe we can do better?

Oh, don't you believe we can do better?  
Don't you believe we can do better?
