

Do Better

Greg Laswell

One note
We all give into
One note based on what we've been through
No dissonance cuts through
Even though it makes me and you

Don't you believe we can do better?
Don't you believe we can do better?

One note
Maybe two
As long as it comforts me and you
And no dissonance cuts through
Even though it makes you and no dissonance cuts through
Funny how that's true

Don't you believe we can do better?
Don't you believe we can do better?

Oh, don't you believe we can do better?
Don't you believe we can do better?

This is where I shout
That time is running out
This is where I shout
That time is running out
This is where I shout
That time is running out
This is where I shout
That time is running out

Don't you believe we can do better?
Don't you believe we can do better?

Don't you believe we can do better?
Don't you believe we can do better?

Oh, don't you believe we can do better?
Don't you believe we can do better?

Oh, don't you believe we can do better?
Don't you believe we can do better?
