

Head for Today

Greg Laswell

Today we drive far away
Till all these lights fade away
Till all I see is endless day

She says that I'm the sky
And all the stars way up high
So I try, I try

Make way, my friends
Life's coming down hard like rain
Drowning us
Oh, take what you like
Head for today

Today we drive far away
Till all these lights fade away
All I see is endless day

Make way, my friends
Life's coming down hard like rain
Drowning us
Oh, take what you like
Head for today
