

Not the Same Man

Greg Laswell

Leave the radio on
I'm alright, I'm alright, We're alright
Leave the television on
I'm alright, I'm alright, We're alright

I'm not the same man
since you saw me last
I'm not the same man
I've got great big plans
since you saw me last
I'm not the same man

No more alarms
I've got this, I've got this I've got this
No fire escape
I've got this, I've got this, I've got this
We've got this

I'm not the same man
since you saw me last
I'm not the same man
I've got great big plans
since you saw me last
I'm not the same man

I want a warm handshake
from a slow and simple life

I'm not the same man
since you saw me last
I'm not the same man
I've got great big plans
since you saw me last
I'm not the same man

I want a warm handshake
from a slow and simple life
