Worthwhile

Greg Laswell

Mary, do what you can
Do get me out of this
And I'll make it worth your while

Hey Tori, all of your stories Make more sense these days And I never wanted them To be worth my while

I'll stand still
Go around, go around

Louis, do what you can, friend To turn up the sound, man And I'll make it worth their while

Robin, do what you can love To face everything love And one day it will all be worthwhile

I'd take all of it from you All of it
