

Crazy All Around

Greg Puciato

Heaven
Is when we go wherever
Shouldn't go so long
I'm never worried with you

Only
Everything we could do
In a world on fire
Make me feel like I'm next to you

Heaven
Is what we make together
But it takes so long
I'm never certain with you

Only
If we don't have to choose
Now we seem so far
And I feel like I'm losing you

Crazy all around
In and out of time
Crazy all around

Funny
What we don't get to choose
Since we all must die
Make me feel like I'm left with you

I don't think I should try
I won't if you don't let me
There's nothing here to decide
So don't you think you can make me

Don't you think you can make me
