

Evacuation

Greg Puciato

You see yourself when you see me
Walk through the air when we're free
Uncertain in your sovereignty
We feel awake when others sleep

Don't you and I belong?
Oh, where did I go wrong?
Don't you and I belong?
Oh, where did I go wrong?

Not gonna just leave
How could it all be?

Walk through the air when we're free
Uncertain in your sovereignty
We feel awake when others sleep

Don't you and I belong?
Oh, where did I go wrong?

Not gonna just leave
How could it all be?
Not gonna just leave
How could it all be?
Not gonna just leave
How could it all be?
Not gonna just leave
How could it all be?
Not gonna just leave
How could it all be?

I never lost this feeling with all I've gone through
I never understood the repercussion
I never fell in love with anything so much
Sometimes it feels as though it all meant nothing

Don't you and I belong?
Oh, where did I go wrong?
