Maybe take some time to renew yourself
Maybe have a drink to go drown yourself
Maybe take a trip to just find yourself
Maybe grow a prick and go fuck yourself

Maybe grow a prick and go fuck yourself
Maybe grow a prick and go fuck yourself
Maybe grow a prick and go fuck yourself

Maybe turn around, get behind yourself
Maybe grow a prick and go fuck yourself

Maybe grow a prick and go fuck yourself
Maybe grow a prick and go fuck yourself
Maybe grow a prick and go fuck yourself
Maybe grow a prick and go fuck yourself
Maybe grow a prick and go fuck yourself
Maybe grow a prick and go fuck yourself
Maybe grow a prick and go fuck yourself

We're not any safer
I'm lost and you're through
Getting everywhere late, well
It's something we do
We might be in danger
But we never listen
Nobody should stay
But honey, you do
I'm not making it simple
You don't make any sense
If I'm steering us wrong, well
You're not making amends
We might be the danger
Broke a heart or two
And I never listen
But you know I will for you

God is in our world
God is in our world
God is in our world
God is in our world
God is in our world
