

September City

Greg Puciato

You and me side by side
Stay here forever
It's okay, I believe
It's okay, you and me

Stay here forever
Stay here forever
Stay here forever

You and me cold outside
Stay here forever
Don't forget we should be
Don't forget you and me

Stay here forever
Stay here forever
Stay here forever

Driving through the dying sun
In the moment I miss no one
Permanence is overdone
Little moments make the long run
If we wander against the light
Let's refuse to believe in never
Then we won't ever have to die
And can have everything together forever

If we wander against the light
If we wander against the light
If we wander against the light
If we wander against the light
