

Sinners & Saints

Gregorian

Anyone can loose it all Anyone can loose it all If you don't heed your warnings call Anyone can loose it all

Anyone can make a mess Anyone can make a mess Just take so much and make it less Anyone can make a mess

When you got time and streets making saints & sinners Ink on sheets makin' losers and winners Well it's not what your dreams should be

Anyone can be a saint Well anyone can be a saint Well you just forget that you ain't Well we can go and be a saint

Anyone can be a star Well anyone can be a star We'll just get in your car And we can go and be a star

When you got time and streets making saints & sinners Ink on sheets makin' losers and winners Well it's not what your dreams should be

You know I wish we had more time You know I wish we had more time You know I think it was a crime The things we waste trying to not waste our time

When you got time and streets making ends for beginners Shuffling feets on these losers and winners Well it's not what your dreams should be
