

# I'll Find a Way

Gregory Abbott

Times I feel helpless, lonely and blue  
Spend every evening, thinking of you  
And I'd welcome you back to brighten my day  
One day soon I'll find a way

When you were with me, I was so cavalier  
I took it for granted, you'd always be near  
Now I understand there's a price to be paid  
I will pay it just to find a way

I'll find a way, though the road won't be easy  
I'll find a way, I'll be searching every day  
I'll find a way, I hope it won't take too long  
Soon I know I'll find a way

Well, my life is empty with you're not around  
The love that you showed me (love that you showed me) just can't be found  
I've made up my mind, I hope and I pray  
I won't stop searching 'til I find a way

I'll find a way, though the road's not easy  
I'll find a way, I'll be searching every day  
I'll find a way, I hope it won't take too long  
Soon I know I'll find a way

Oh, you make me believe in the power of love  
Now I'm so much wiser, yeah  
Having you back is all I'm dreaming of  
I'll treat you better, whoa

I'll find a way, though the road's not easy  
(I'll find a way) I'll find a way, I'll be searching every day  
I'll find a way, I hope it won't take too long  
Soon I hope I'll find, have my peace of mind  
One day I will find my way, hey  
Hey, ooh  
I'll find a way
