

## Romance and Stars

Gregory and the Hawk

romance and stars  
take me out, make me think about it  
long and hard  
if that's all/everything/more  
that i could be looking for  
you need it so believe it  
retreat into your mind  
why are we tomorrow  
when that's all behind us?  
you see what i see, it's  
romance and stars  
take me out, make me think about it  
it's not so hard now  
you've got it all  
make me think i am bitter  
to consider it this far  
you need it, so believe it  
retreat into your mind  
why are we all tomorrow when all of that's  
behind us... i couldn't believe it,  
wouldn't it be great...  
romance and stars, where you are  
see you almost would be gone if  
you couldn't wait for me  
with all this we could lose it  
and be free, free, free  
wouldn't that be great?
