

## Sweet Winter Hello

Gregory and the Hawk

To the hills we go  
Bring all of your fog and smoke  
Bring all the friends you know  
To the hills we go  
To the fall we blow goodbye kisses, bid winter hello  
Feel the pine needles give way below

Oh, winter, sweet winter, hello...  
Steal my sun I'll be your only one

In the times we know  
Life takes money and money makes woes  
Like your lover leads your heart, lets it grow,  
Keep an eye on the silent sky  
See the splendor in a short ride  
Be the slow falling snow  
In the times we know
