

Easy Lover

Gregory Isaacs

Would you give it all up, give it all up for me?
- I'm axing a question
Would you give it all up, give it all up for me?

There are two roads before you
And you've gotta make a choice
Would you give your prince for this pauper
Would you make them sacrifice?
I know that he treats you good
And you're well looked after
Yet my question to the easy life
That's filled with fun and laughter

Would you give it all up, give it all up for me?
- I'm axing a question
Give up your easy life and your luxury
Would you give it all up, give it all up for me, ooeh
Give up your easy life and your luxury

Be careful when you make your decision
remember I'm a man on a mission
What I start I just don't quit
Are you ready for this relationship
I offer you no bed of roses
I'm a man of simple means
Here's my heart - you can have it
If it's lovin' that you need

Would you give it all up, give it all up for me, mmm
Give up your easy life and your luxury

There're two roads before you
And you gotta make a choice
Would you give your prince for this pauper
Would you make them sacrifice?
I can see that he treats you good
And you're well looked after
You were used to that easy life
That's filled with fun and laughter

Would you give it all up, give it all up for me - answer me question
Give up your easy life and your luxury - I wanna know
Would you give it all up, give it all up for me, ooeh
Would you give up the easy life and the luxury
Would you give it all up, give it all up for me, ooeh
Would you give up the easy life and the luxury, mmm
Would you give it all up, give it all up for me,
Give up the easy life and the luxury
Would you give it all up, give it all up for me, tell me now
Give up the easy life and the luxury...
