

## Extra Classic

Gregory Isaacs

Sister love, whenever time you're all alone  
Just pick up your telephone  
And say, "My darling come on over",  
Hear me, Babe  
And I will

Sister love, love, love  
Please don't stay away too far  
You may not be a movie star, girl  
But extra classic, that's what you are  
Hear me, Babe  
Yes, extra classic, that's what you are

Sister love, love, love  
Someday I will make you mine

Just you call me any time  
Whether it's raining, it's snow or shine, girl

Sister love, love, love  
Please don't stay away too far, no  
You may not be a movie star, girl  
But extra classic, that's what you are  
Yes, extra classic, that's what you are  
Whether you're near, or whether you're far  
Extra classic that's what you are, I know

I'm never, never going to let you go
